

**DEPOSIT YOUR CHECKS WITHOUT
LEAVING YOUR OFFICE!
NO MORE TRIPS TO THE BANK!**

How does *Remote Deposit Capture* work?

Remote Deposit Capture takes advantage of Check 21 to provide a safe, secure, and efficient means of depositing checks received at your business / organization.

Step 1

Scan

Scan your checks and balance your deposit from your office!
All you need to get started is a computer, a check scanner, and a high-speed Internet connection.

Step 2

Transmit

Transmit your deposits to the bank.
Submit an electronic file of your digitized checks to Twin River National Bank through a secure Internet connection designed to keep information safe.

Step 3

Deposit

Deposit your money.
Twin River National Bank receives and processes your digitized check images. Your check images are stored in our online archive indefinitely for customer search / retrieval.

What are the benefits of *Remote Deposit Capture*?

Later Deposit Deadlines
No Transportation Delays
More Secure Deposits
Minimal Investment Required

Minimal Training Required
Consolidation of Bank Relationships
Comprehensive Audit Trail, Reporting
Integration with Accounts Receivable

How Do We Get Started?

We will consult with you to quickly determine how we can best meet your requirements. Depending on your number of locations and check volume, we will recommend one or more low-cost check scanners to you. The scanners connect to your existing PC. Our plug and play deployment and web browser access simplifies installation, upgrades, and support.

You will be depositing checks from your office in a matter of days!

Why Twin River National Bank?

- **Remote Deposit Capture Flexibility**
As one of the truly local community banks in the valley, we are able to work closely with you to ensure your success.
